

Proposed ESVBA 2020 Meeting Schedule

January: Regular Meeting

February: Workshop

March: Regular Meeting

May: Regular Meeting

June: Workshop

July: Regular Meeting

September: Regular Meeting

October: Workshop

November: Regular Meeting

The proposed workshops would be used for focused and detailed discussions by the Board and staff on specific issues of importance to the ESVBA. These could be such things as a dark fiber policy, residential extensions, or commercial rates. There would be no need to have any routine reports [financials, usage levels, etc] updated at the workshops.

I would also like to suggest the Board conduct a meeting/retreat in order to discuss strategic long term planning and goals for the ESVBA. The organization has been growing incrementally and it may be time to establish updated plans, goals and priorities for the Authority.
